

Interactive Group Workshop Rubric

Name:

Criteria	Points 0-2-3-4
Is there evidence of a well-designed and engaging learning centre that is appropriate for the assigned science cluster? Does the centre provide meaningful opportunities to practice a skill in science that is different from the other group members within the assigned science cluster?	
Is there evidence of a well-prepared presentation of the learning centre? (The evidence could be provided in the form of an outline of talking points or a script).	
Does the short reflective paper (less than a page) on the centre include possibilities for improvement of the design?	
Does the final report on the learning centre include a picture of the centre (to be photographed by the instructor, if necessary) and an explanation of the center in a lesson-plan format?	
Does the final report on the learning centre include a reflection on the value of creating the centre?
